

The Future of PRODAS

Final VB6 Release • New Support Portal • Transition to .NET

August 2026

Version 3.6.24 Final VB6 Release

Version 3.6.24 is scheduled for release in August and will be the final PRODAS release developed in VB6.

This release delivers stability improvements and select feature enhancements to the existing VB6 version of PRODAS.

Fall 2026

Customer Support Portal

The existing software download site will be expanded into a centralized Customer Support Portal providing:

Software downloads

Product documentation

Support requests

Winter 2027

Looking Ahead: PRODAS on .NET

Future PRODAS development will transition to .NET, improving compatibility with current Windows environments and providing greater flexibility for future enhancements.

Additional information will be shared as development progresses.

Thank You

Thank you for choosing PRODAS.

Customers with active software support at the time of the .NET release will receive the new version at **no additional licensing cost**.
